Dear Sirs:

I was informed to call on you if necessary about an unidentified flying object that I have seen recently in Winchester, Virginia on route 522. I first informed the Lewis Research Center in Cleveland, Ohio about the mishaps and I received the reply from Calvin W. Weiss who is the manager of educational services at the center. Then he informed me if I wanted to go any farther into this I should inform you that you would have a little more of an idea. Mr. Weiss said it might of been Echo II because they usually appear to move from south to north or from north to south, depending on its particular orbit and the position of the earth at the time. So if possible I would like to have some information on this statement.

PS. If possible would you send any information on the Project Gemini of any clippings or film strips, I would be pleased.

Hoping to hear from you soon.

Yours Truly,
